WEB DEVELOPMENT PROJECTS

TLCshare - <https://tlcshare.herokuapp.com/>

A place for caregivers to organize and share. A blog – for caregivers to share their experiences and information with other users. Databases – for users to have access to a private area with helpful tools, such as: Todo lists; Medication lists; Addresses and contacts; and more. By sharing their sign-in information with co-caregivers, family or friends – families can share information and tasks. Ruby I18n translation to German. Ruby on Rails application -HTML, CSS, JavaScript, Ruby, Ruby on Rails, Ruby I18n, Devise, vendor library, jQuery

MIDDLEGROUND - <https://middle--ground.herokuapp.com/>

This was a group project with two other students at NYCDA. A Ruby on Rails app to help the user find the geographical middle ground between two locations. The app uses Google Maps API, as well as Google Maps Places API, to calculate the middle ground, get transit information, and find places to go to meet.

Ruby on Rails application - HTML, CSS, JavaScript, Ruby, APIs

NewJerseyMediation – <https://newjerseymediation.com>

An informational website explaining the benefits of mediation, compared to litigated proceedings, and services provided. A Contact form is provided for further information

HTML, CSS, JavaScript, Contact.php, Bootstrap, SEO
